

YOUR GUIDES TO OPTIMUM HEALTH

Founded in 1994 by naturopath, Debra MacIntyre, Natural Health Solutions helps people of all ages support the body's ability to heal. Unlike traditional practitioners, our philosophy is not to treat disease but rather to look at the whole person to understand how one symptom or body system affects another, and then find balance through natural remedies.

While located in Roswell, Georgia, patients come from across the metro Atlanta area—and across the country—to consult with our experts in order to attain a level of health and a feeling of well being they never thought possible.

Experience results-oriented natural healthcare from our caring professionals.
